

GILLIBRAND SILVER SAND

ANTI-SKID AGGREGATE FOR DECK COATINGS

TECHNICAL DATA SHEET

PRODUCT DESCRIPTION:

GILLIBRAND SILVER SAND is a natural aggregate for broadcasting into wet coatings to create anti-skid and anti-slip surfaces. May be used with our polyurethane traffic systems and sloping materials (See QUICKET Sand/Slurry®) to create a long lasting, wear resistant finish for decks, parking structures, ramps, steps, etc.

BASIC USES:

As a component for waterproofing parking decks and concrete and plywood roof decks systems, where a skid-resistant, long lasting, wear-resistant surface is required. Suitable for exterior, as well as interior applications in all kinds of climates. Coatings with aggregates retain their elastomeric properties in below freezing weather and very hot climates.

ADVANTAGES:

- Long lasting, wear resistant, and durable in all climates
- Slip resistance for pedestrian and vehicular traffic
- Improves the compressive strength of coatings to resist the effects of suddenly applied braking, turning, and acceleration
- Extends the yield of coatings while maintaining their elastomeric properties
- Natural material / long shelf life

PACKAGING:

- Sold in 50 lb. bags

WARNING AND HAZARDS:

- Before using this product, always refer to SDS for important warnings and safety information

AVAILABILITY AND COST:

GILLIBRAND SILVER SAND is supplied through building material dealers. These products are designed and manufactured to be installed by professional installers familiar with surface preparation and application procedures. All others should consult a professional installer; those who choose to install these products without professional assistance do so at their own risk.
